

ISO 14001 SERVICES

ASTI ENVIRONMENTAL

ASTI Environmental (ASTI) assists companies in obtaining International Organization for Standardization (ISO) 14001 certification, a market-driven requirement incorporating environmental standards into operations. As more buyers demand their suppliers conform to ISO 14001 specifications, certification is becoming a component of remaining competitive. ASTI's streamlined approach to the certification process keeps you on schedule while supplementing your internal resources.

ISO 14001 CERTIFICATION ASSISTANCE

The ASTI system follows the five principals of the ISO 14001 certification process, including the following:

- I. Environmental Policy
 - Assistance in developing your corporate environmental policy
 - Performing audits of your current environmental policy and provide a gap analysis
- II. Planning
 - Evaluating your existing compliance requirements
 - Reviewing your environmental management system
 - Identifying significant environmental impacts
- III. Implementation and Operation
 - Establishing environmental objectives
 - Setting targets to minimize environmental impacts
 - Reviewing your standard operating procedures
 - Updating or prepares an environmental management system for your company
 - Preparing instruction manuals and programs
 - Preparing the necessary permits, plans, and programs for your operations
 - Providing environmental training for your company
- IV. Checking and Compliance Assessment
 - Conducting environmental monitoring
 - Providing environmental performance measurement
 - Performing document control and records management
 - Coordinating permit renewal
- V. Management Review
 - Performing annual audits of your operations
